Transparency with time logs and timesheets

One stop provider for SaaS, MVP, softwares and app development

**Jon Holttum**  
Fissara, CEO

**Nick Lawford**  
Carebean, Director

I have worked with V2Stech for a number of years and 2 companies. The relationship started by V2Stech building a proof of concept in a limited time to test their abilities. They passed with flying colours. I have been working with the ever since.

At my current organisation they have become my trusted IT partner, performing all of the functions that a normal IT company would do, We have a very close working relationship based on trust, delivery performance and mutual understanding.

**Venugopal Choudary**  
Qfix Infocomm, Director

Hardworking attitude, always available to work on a crisis, high integrity and focus to ensure success of client's business
